#### CONDICION DE COMPRA

- Los Precios están expresados en Moneda Soles
- Validez de la Propuesta: 30 días o hasta agotar stock"

#### GARANTIA DEL PRODUCTO

- GARANTIA DE 1 AÑO

#### FORMA DE PAGO

#### PLAZO DE ENTREGA

- Entrega Inmediata o dentro de 24 a 48 horas

#### FORMAS DE PAGO

- EN CASO DE ENTIDADES PUBLICAS EL PAGO ES DESPUES DE LA ADQUISICION EN LOS ALMACENES DE LA INSTITUCION

- EN CASO DE EMPRESA PRIVADA

Opcion1: (Envio courier gratis): previo depósito de la totalidad a las cuentas del banco (envio gratis) a la cuenta corriente bcp soles

Opcion2: (Entrega en nuestras oficinas):

Solicitar la direccion mas cercana a su residencia al rpm #999033365 rpc: 959354677, estamos ubicados en lima (Distritos de surco, javier prado y wilson) , arequipa, trujillo, otros departamentos

Opcion3: Para Entidades del Estado : Pago despues de la Entrega"

#### DIRECCIONES

##### LIMA

Dirección1: Av. Garcilazo de la Vega 1348 Ciber Plaza - Cercado de Lima

Dirección2: Los Negocios 449 Surquillo - Lima

Dirección3: Calle Raúl Rebagliati 171 - Urb. Santa Catalina La Victoria Lima 13 - Peru..

##### AREQUIPA

Calle Rivero 107 oficina 302g

## Data sheet

# HP ProLiant DL360 Gen9 Server

Dense performance for multi-workload computes in the data center

- **Dense and flexible high-performance compute power**—Up to 24 DDR4 HP SmartMemory DIMM slots with built-in intelligence improve performance and reduce downtime and energy costs, resulting in up to 14 percent better throughput performance.<sup>2</sup>
- **Industry-leading energy efficiency for lower power consumption**—Supports improved ambient temperature ASHRAE A3 and A4 standards, helping you reduce cooling expenses.
- **Agile infrastructure management for accelerating IT service delivery**—Converging management for automation simplicity across servers, storage, and networking with HP OneView.<sup>3</sup>

## Uniquely optimized system design and architecture

### Purpose-built for dense performance

World-renowned for supporting dense general-purpose computing needs, the HP ProLiant DL360 Server just got better. The Gen9 release of this industry-leading server platform<sup>1</sup> delivers increased performance with the best memory and I/O expandability—packed in a dense 1U/2-socket rack design.

Continuing its legacy of reliability, serviceability, and continuously availability, the ProLiant DL360 Gen9 Server is the ideal choice for:

- **Space-constrained server workloads**—Such as those used by small- to medium-sized businesses (SMBs) and service providers
- **Dynamic workloads**—Such as high-performance computing, databases, and virtualized private and public cloud; all of these workloads require a top-rate balance of performance, energy efficiency, and density
- **Compute-intensive applications**—Such as Big Data, analytics, seismic discovery, and more
- **Low-latency and transactional applications**—Such as those used in the financial services industry

## Higher performance, extended support

Designed with performance in mind, the HP ProLiant DL360 Gen9 Server leverages the latest Intel® Xeon® E5-2600 v3 processors to offer up to 70 percent performance gains.<sup>4</sup>

You can manage your HP ProLiant DL360 Gen9 Server in any IT environment by automating the most essential server lifecycle management tasks—deploy, update, monitor, and maintain. And to support your heterogeneous IT environment, the DL360 Gen9 supports Microsoft® Windows® and Linux® operating systems, as well as VMware® and Citrix® virtualization environments.

<sup>1</sup> IDC W/W Quarterly Server Tracker, May 2014.

<sup>2</sup> Based on similar-capacity DIMM comparing HP server to a non-HP server with DDR4, July 2014.

<sup>3</sup> HP OneView support for ProLiant Gen9 in DL and BL servers expected later in 2014.

<sup>4</sup> Intel performance testing, comparing measurements on platform with two E5-2697 v2 (12C, 2.7 GHz), 8x8 GB DDR3-1866, RHEL 6.3 vs. platform with two E5-2697 v3 (14C, 2.6 GHz, 145 W), 8x8 GB DDR4-2133, RHEL 6.3, April 2014.
